

NATIONAL JOURNAL OF LIFE SCIENCES(Abbreviation: *Natl. J. Life Sci.*)**INSTRUCTIONS TO AUTHORS****General**

At least one author (in a group of 3 co-authors only) must be subscriber/member of the journal at the time of submission of the manuscript. Manuscript will be accepted only after proper reviewing and on the advice of the editor(s).

The management committee/editorial board assume no responsibility for the statement and opinions advanced by the author(s). Submission of research paper implies that it has not been previously published and it is not under consideration for publication elsewhere. Galley proof will not ordinarily be sent to the author(s), unless desired. Therefore author(s) is/are advised to prepare the manuscript with utmost care and strictly as per format of the journal. There will be no printing charges but nominal price of twenty reprints is compulsory after the receipt of invoice/acceptance letter. The management does not accept responsibility for any type of damage or loss of manuscript, keep a copy for your record.

Presentation of Manuscripts

Manuscript must be original and written in English. Authors are requested to follow the format for sending the manuscript. The original research paper/review articles are categorized separately in this journal. Full length paper should not exceed ten double space typed pages (A4 size) with wide margins on both sides. Whereas, short communication should not exceed by three pages. The first category should be divided into **Abstract, Keywords** (maximum 5 words in Italic), **Introduction, Material and Methods, Results and Discussion, Acknowledgments** (if any) and **References**. Paper in the second category should be in running form with references at the end in short form.

The colored photograph of good quality may be considered for printing. Table should be compiled on separate sheet and a title should be provided for each table the text of the manuscript must bear the reference of the table(s). The table(s) and plate(s)/figure(s) be attached/separately after the list of references. References should be complete and cited as the name of author, year, title, journal, volume number and pages. Use standard abbreviation of the journal(s). The reference list should be in alphabetical order. Only relevant references are desirable. References should be given in the following style:
